

Advocate Office 1.0

The Greatest Software for Advocates

A White Paper

“This paper was written specifically for BLISS and Partner sales representatives to position BLISS Advocate Office 1.0 as a world-class Advocate Office solution.”

भारतवर्षा १.०

A REVOLUTIONARY SOFTWARE FOR ADVOCATES

Bliss Intelligent Technologies, India has started a new wave in Artificially Intelligent Software Technologies. 21st century is a century of Human Machine Interface Systems. BLISS is a pioneer between all the Text To Speech and Speech Recognition System development organizations.

BLISS is trying to penetrate Information Technologies in the rural population. **"Technology is useful if and only if it is used by the masses"**. We are developing various E - Governance Software Systems, which are already popular among the masses of India. Ministry of Information Technology, India has already acknowledged our work.

We also work on Advocate Software, Court case management software and legal software. We have developed an office automation software for the advocate office. It caters the need of file and document management of advocates. It also takes care of daily Cases and the client records. This software can read the case synopsis with the help of Text To Speech Technology.

Currently this software is very much popular in Rajasthan, India.

- Maintains Client records.
- Maintains Case Records - including Case Entries and Case Proceedings.
- Maintains Rulings.
- Maintains Fee Records.
- Text To Speech Integration for the synopsis reading and the document reading.
- Comprehensive Cause List Display
- Impeccable Information Retrieval
- **Local Language Support**

Please write us for the free demo copy of Advocate Office software.

For more information kindly visit <http://www.blissit.org/advocate.htm>

Introduction of Advocate Office 1.0

Advocate Office 1.0 has a very attractive and simple graphical user interface along with excellent technical facilities. Advocate Office 1.0 is very much necessary for any advocate.

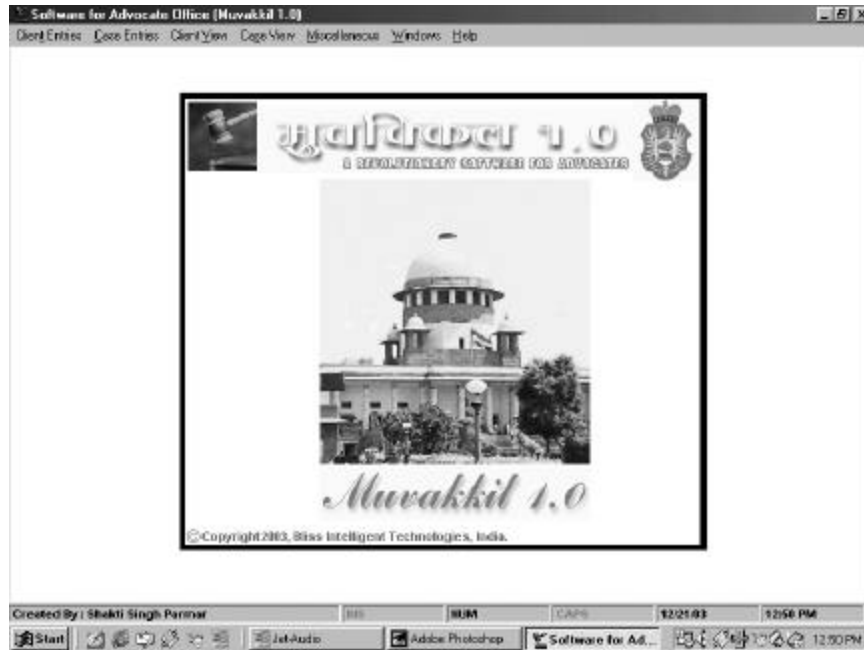

Login Screen :

Advocate Office 1.0 supports multiple login. Administrator has all the rights of manipulating the data. Other users can view the data according to the administrator's choice.

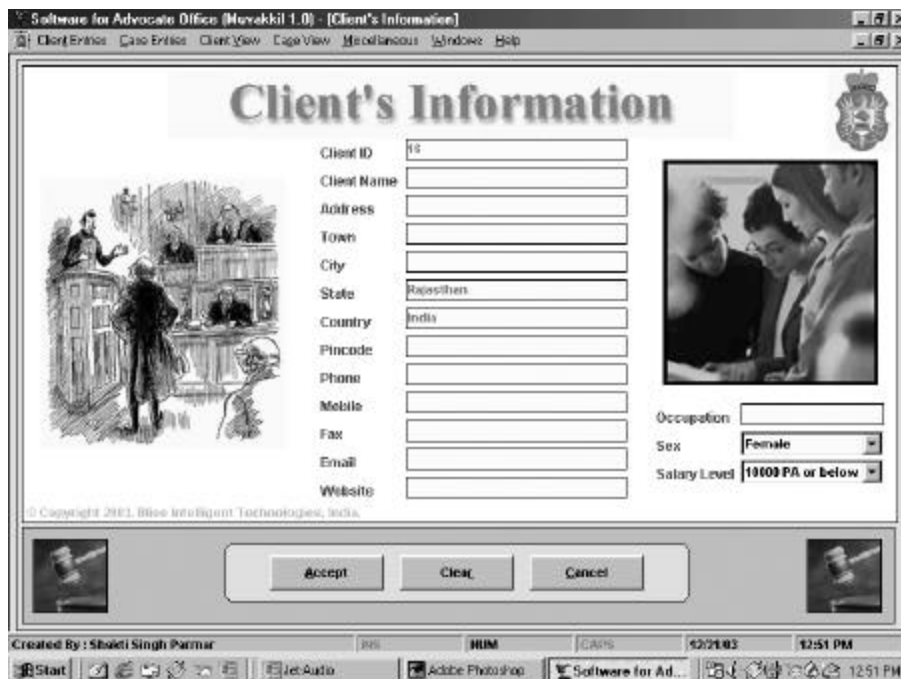

Splash Screen :

After the login... a splash screen comes for few seconds.

Main Window :

Main window consists of various menus and options. Menus are designed according to the common user aesthetics.

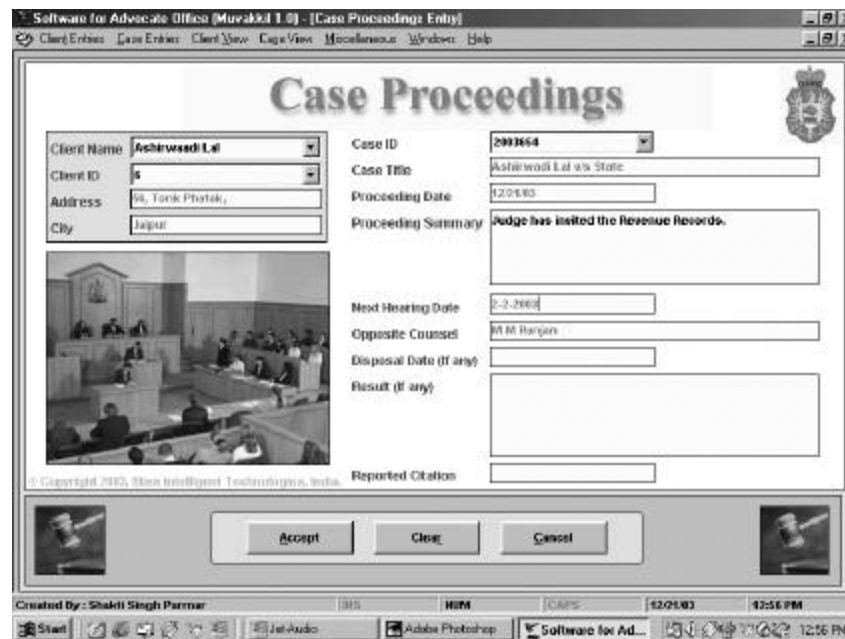

Client Entry Window:

User can feed all the details of the client.

Case Entry Window :

User can feed all the details of a case, which is going to be start. It has a nice feature of synopsis entry. Synopsis is basically a brief summary of a case.

Case Proceedings Window:

User can maintain all the details of every single case proceeding. It will help in the better office management and will prepare a paperless office.

Fee Recovery Window :

The fee recovery method of advocate is very much unorganized in India. This software caters the need of organized fee management.

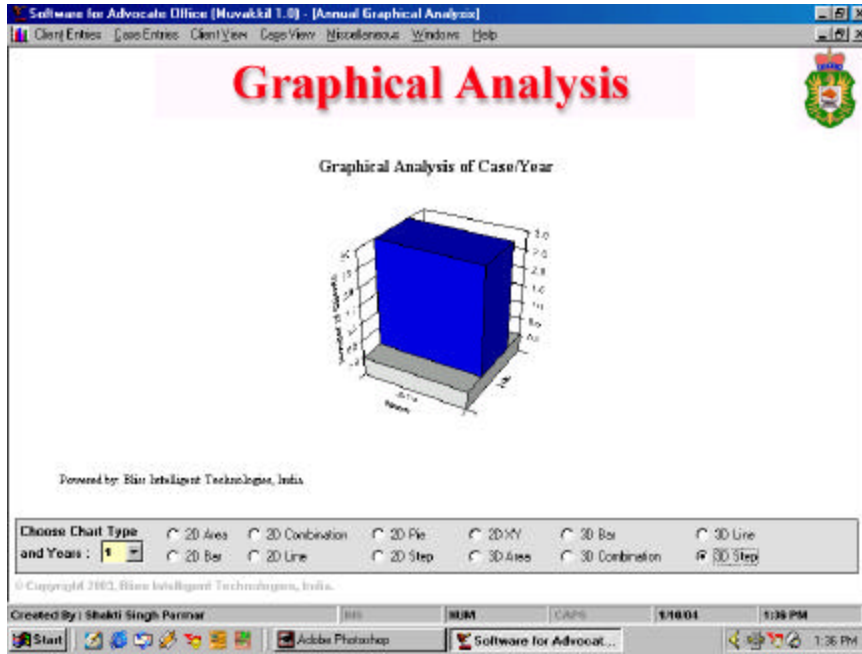

Rulings Window :

User can maintain the reference case records. Rulings entry is very vital for the future reference.

What's more ?

This is not the end... This is just a beginning of a great experience. A great experience of a great software. More features :

The screenshot shows the 'Case History' window of the 'Software for Advocate Office (Muvakkil 1.0)'. It features a form for case details and a table of proceedings. The case details are as follows:
